CHI JEFPERRY ACHU

SOFTWARE DEVELOPER | AI & AUTOMATION | TECHNICAL SUPPORT

Ottawa, Ontario | 437-366-0247 | jefperry89@gmail.com | linkedin.com/in/jefperrychi | github.com/Jefperry | landismart.com/en

PROFESSIONAL SUMMARY

Software developer building responsive web and mobile applications with TypeScript, React, Next.js, and React Native. Experienced in frontend development, API integration, PostgreSQL database optimization, and application infrastructure, with hands-on work in LLM integrations, AI agents, and AI-powered business workflow automation. Also brings Windows/macOS troubleshooting experience and direct technical assistance to patients and customers.

TECHNICAL SKILLS

Programming Languages: JavaScript, TypeScript, Python, Java, SQL
Frontend & Mobile: React, React Native, Next.js, Expo, HTML, CSS, Tailwind CSS
Backend & APIs: Node.js, Hono, REST APIs
Databases: PostgreSQL, MySQL, SQLite, Supabase, Oracle SQL, Redis
AI & Automation: OpenAI API, Anthropic API, LangChain, AI Agents, Claude Code
Infrastructure & Tools: Docker, Cloudflare, Hetzner, Coolify, Drizzle ORM, Better Auth, BullMQ, Vercel, Git, GitHub
Testing: JUnit, Vitest, Python unittest, Postman
IT Support: Microsoft 365, Windows Administration, Windows & macOS Troubleshooting, Hardware Diagnostics, Software Installation & Configuration

PROFESSIONAL EXPERIENCE

LandiSmart | Founder & Software Developer May 2026 – Present | Remote

- Lead the technical architecture and implementation of an in-development property-management platform for African landlords, collaborating with other developers.
- Build the web application and admin portal with Next.js and the mobile application with React Native and Expo, backed by PostgreSQL, Drizzle, Better Auth, Redis/BullMQ, Cloudflare, and Hetzner/Coolify infrastructure.
- Develop and use a LangChain-based AI agent with OpenAI and Anthropic APIs to support engineering workflows; design integrations for payments (CamPay, Stripe), messaging, email, push notifications, analytics, and realtime services.

Pinnacle Therapy Center | Software Developer July 2026 – Present | Carling, Ontario | Hybrid

- Designed and deployed an AI-powered voice-response and automated appointment-scheduling workflow using Dialzara to reduce manual booking tasks.
- Built and maintain the clinic website on GoDaddy; developed patient intake forms and a mobile-responsive booking system integrated with JaneApp.
- Integrated an AI email-routing pipeline and third-party telehealth tools into the clinic's digital infrastructure; assist patients with booking problems, scheduling questions, and general website or technical issues.

Mavoo | Software Developer November 2025 – May 2026 | Ottawa, Ontario | Remote

- Implemented the full web-application frontend using TypeScript and Next.js, integrating user-facing features with backend APIs while collaborating with a development team.
- Developed selected mobile application screens and features, including sign-in and home screens, using Claude Code in an AI-assisted development workflow.

AUG / Prudential Beneficial Life Insurance May 2024 – August 2024

Software Development & Systems Optimization Intern | Douala, Cameroon | Remote

- Optimized SQL database operations and automated insurance-policy validation, reducing processing time by 40% and improving client data-tracking efficiency by 20%.
- Documented system changes, workflows, and configuration guides during a cloud migration of financial transaction systems under GDPR and financial regulatory requirements; conducted penetration testing and cybersecurity risk assessments across systems holding 10,000+ customer records.

EDUCATION & CERTIFICATIONS

Computer Programming Diploma | Algonquin College, Ottawa, Ontario | Completed December 2025 | GPA: 3.5/4.0
